Johor, Malaysia

EDUCATION

BSc of Mathematics and Applied Mathematics
Xiamen University Malaysia
2022 – 2025

MSc of Mathematics
Shanghai Jiao Tong University
2025 – Present

SKILLS

HARD SKILL

- MATLAB
- R coding
- Python
- Canva
- Microsoft Office

SOFT SKILLS

- Team Working
- Data Analysis
- Event Planning
- Public Relations
- Public Speaking

- MALAY

Professional speaking and writing

- MANDARIN

Native speaking and writing

- ENGLISH

Professional speaking and writing

ABOUT ME

Mathematics graduate from Xiamen University Malaysia (XMUM) with strong leadership experience in student organizations and academic event management. Passionate about combinatorics and its applications, now pursuing a Master's in Mathematics at Shanghai Jiao Tong University (SJTU) and open to learning beyond math.

CURRICULAR EXPERIENCE

President 2024–2025
Mathematics Department Student Council, XMUM

- Led the student council to represent 200+ math majors, strengthening student-faculty communication.
- Organized 6+ academic workshops and peer-learning events to support academic excellence and student collaboration.

Participant December 2024
China–Malaysia 50th Anniversary Official Celebration

- Participated as a student representative at the event.
- Fostering cross-cultural understanding and showcasing educational collaboration between the two nations.

WORK EXPERIENCE

Teaching Assistant 2024–Present
Exprii

- Assisting in live Olympiad mathematics classes and student learning support.
- Responsible for student performance tracking, parent correspondence, and facilitating effective learning engagement across international cohorts.

Intern Jan 2025–Mar 2025
The Tea Republic Sdn. Bhd.

- Assisted in order processing and inventory management, ensuring accurate documentation and timely coordination between warehouse and retail operations.
- Supported marketing and social media initiatives, including content preparation and promotional campaign coordination for corporate and festive orders.

PROFESSIONAL TRAINING

G2C2 Summer School and Conference August 2024
Hebei Normal University, Shijiazhuang

- Engaged in discussions on number theory, combinatorics, and algebraic structures.
- Gained insights into global mathematical research trends through lectures and collaborative group work.
